** New Game Distribution **

New game distribution has changed on the planograms and auto-shipment for new game launches. We have reduced the $1 and $2 ticket options for bin sets under 28 games. Additionally, other game availability is now based on bin sets and how a game fits in market. An example is this month’s $20 ELECTRIC LUCK – LUCKY SHAMROCK which will not be in the 16 and 12 bin planograms. The instant ticket product has been rapidly changing over the past two years and we find it necessary to make adjustments to our game mix to ensure the best options while minimizing partial pack returns. Partial pack returns can be a concern due to the possibility of unknowingly returning a top prize instead of it being available to the players. With these new changes this may mean your individual store may no longer receive all games. Work with your FMSR to discuss possible bin expansion, but note to remain planogram compliant you will have to follow the planogram for your bin set.
